Exciting News: NeedWIRE.com and AAA All Voice & Data have merged!

Summer 2024; Dan Latner & Vitaly Kagan

This strategic partnership significantly enhances our capabilities and broadens the range of solutions we can offer you.

What This Means for You:

You now have access to an expanded suite of services, including:

• Advanced Security Solutions: Cutting-edge **security camera** wiring, AI-integrated systems, and sophisticated access control with analytics.

• Comprehensive Communication Systems: Expertise in both legacy and new **VOIP phone systems**, as well as intercom and alarm systems.

• Expert installation & repair of **Fiber Optic Wiring** & systems.

- Enhanced Office Privacy: White noise and **sound masking** systems to create a more private and productive workspace.

- **High-Speed Internet**: Premium internet services & phone service for robust connectivity.

- **Extended Service Area**: Our expanded reach now covers Connecticut, New Jersey, Westchester, Long Island and much of the 50 states.

- Plus all the same great **Cat6 Ethernet data** cable installation services you have come to expect from NYC's most capable installation team. Call any time for help with your wiring, or to recommend a client or collegue that needs wiring.

Our commitment to exceptional service remains unchanged.
We continue to provide top-tier solutions in data cable installation, server room setup, racks, patch panels, cable management, and all your low-voltage wiring needs.

We are here to answer any inquiries and provide a prompt, complimentary quote for any upcoming projects, whether you're relocating or expanding your office, or just need cable support.

Thank you for your continued trust and partnership.

★ *Best wishes for a safe, happy and successful 2025!* ★
